Education

S. G. Balekundri Institute of Technology	**Aug 2017 - July 2021**
B.E (Computer Science and Engineering) - CGPA-8.1	*Belgaum, Karnataka*

EXPERIENCE

Capgemini - Barclays	**Sept 2021 – Present**
Senior Software Engineer	*Pune, Maharashtra*

- Performed live demos to customers and nurture client relationships.
- Trained and mentored incoming engineers to meet standards and protocol expectations.
- Migrated APIs to new version with code changes and then build and deployed it in some clusters to make it ready for Production.
- Applied advanced knowledge of programming languages and development tools to deliver critical features within the deadlines.
- Developed high quality robust, modular and scalable code to meet the business requirements using Javascript and ReactJs.
- Worked to enhance business applications through thoughtful modifications and system changes.
- Actively participating in code reviews/pull requests while focusing on productive feedback.
- Supporting engineers across our teams with any coding challenges, defects, or general questions.
- Presented thorough study and evidence (proof of concept) supporting the ideas behind new internal frameworks.

PROJECTS

Portfolio Website | *HTML, CSS, Javascript, React, Redux*   **GitHub**

- Build and deploy a modern portfolio website with designs and ability to send email, download resume and redirect to social media sites.
- React best practices such as folder and file structure, hooks, routing and many more.
- Display about, experience and contact sections.
- Responsive and works on devices with different resolutions.

Food Order APP | *HTML, CSS, Javascript, React.*   **GitHub**

- Modern Food order app using React and Redux with functionality to add and delete food items to and from the cart.
- Implements state management of the entire application using React hooks.
- Implements Food items and items added to cart with http request with simple database.
- Currently working on building about, contact, login and register page functionality.

Investment Calculator App | *HTML, CSS, Javascript, React.*   **GitHub**

- Build and deploy Investment Calculator using ReactJS and it's Hooks, which calculates the total interest for requested amount, period and for certain rate of interest.
- Displays the Total amount with interest earned and interest earned for that particular year.
- Works with already invested amount plus new investment plans and also with fresh investments plans.

TECHNICAL SKILLS

Languages: HTML/CSS, JavaScript, ReactJs, Redux, Java.
Developer Tools: VS Code, IntelliJ.
Technologies/Frameworks: Jenkins, GitHub.
Agile Tools: Jira (Story board), Confluence (Documentation).

ACHIEVEMENTS AND AWARDS

- Completed Microsoft Azure Developer Associate (AZ-204) certificate.
- Voted MVP of the team for multiple sprints.
- Participated in Smart India Hackathon 2020, where developed application to track the progress of government projects running under smart city mission.
